momentum.

Own your life moments

Our moments

momentum.

Our moments

momentum.

Our moments

Moments define who we are

Let us ask...

In times where everything is "out" in the open ...

Four Questions That Matter

1. Can you easily go back to that **special** moment, you would like to preserve for **life**?

momentum.

Four Questions That Matter

2. Can you keep these moments **private** and **secure**?

momentum.

Four Questions That Matter

3. Can you trust that your moments will be there in **20 years** time?

momentum.

Four Questions That Matter

4. Do your moments define **you** ?

Hint: if you've answered "no" to any of these questions then you don't really own your moments.

momentum.

Answer:

Human centric & **human scale** applications that don't reduce us to data generating, data mined, ad-clicking bots.

That give us the power to
own our life moments.

momentum.

momentum.

Momentum is an application that enables people to **share** and **cherish** their **truly important moments**, photos, videos and documents, within **close(d)** circles of friends in an absolutely **private**, **intuitive** and **fun** way, for <u>life</u>.

How?

A **peer to peer** archiving and **social network** app. Powered by the **People** you value the most, by the **People** you trust the most!

momentum.

How?

No servers, no data in the **cloud,** built in data redundancy & denoising. **Fun** to **share** and **use**.

momentum.

Features?

- Define multiple, isolated circles of family/friends

- Share pictures, videos, documents, social media data from mobile/desktop in one click, among devices.

- Browse their moments and their moments of their friends in a fun way, like a diary!

Momentum adds on top:

- Built-in backup/restore. Your data can be claimed from your trusted ones

- Pure peer to peer. No data stored in servers.

momentum.

An application pattern that combines

Values: Privacy, Security and User Ownership
